Continue rinsing. • Immediately call a POISON CENTRE. • Avoid release to the environment. • Collect spillage. • Dispose of content/container to suitable landfill in accordance with local and national regulations.
----------------------	--	---

SYMPTOMS OF POISONING

Symptoms might include abdominal cramps, anxiety, breathing difficulty, diarrhoea, dizziness & drowsiness.

FIRST AID TREATMENT

Remove the victim from the area of exposure. Wash off remaining material with plenty of water. In the event of any complaints or symptoms, avoid further exposure and consult a doctor.

Inhalation: If vapours or mists have been inhaled, move victim to fresh air and remove source of contamination if safe to do so. The patient should be kept under observation. Only qualified personnel should perform administration of oxygen. Obtain medical attention if symptoms persist.

Skin: Move the victim to fresh air and remove all contaminated clothing, shoes and leather goods. Wash skin gently and thoroughly with cold water and non-abrasive soap. Do not rub the skin. Obtain medical attention if irritation persists.

Eyes: Flush eyes with clean, lukewarm water for at least 15 minutes or until the product is removed, holding the eyelid(s) open. Lift eyelids to facilitate irrigation. Take care not to rinse contaminated water into the unaffected eye or onto the face. If present, remove contact lenses after 5 minutes and continue rinsing. Seek medical attention immediately.

Ingestion: Do not induce vomiting unless instructed to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. Have victim rinse mouth thoroughly with water. Seek medical advice immediately showing container and label.

Anticipated acute effects: May be harmful if swallowed. Causes eye and skin irritation. May be harmful if inhaled.

RELEVANT SUBSTANCE		CONCENTRATION (%)
Glyphosate ammonium salt		
CAS N°	40465-66-5	≤ 2 %
Formaldehyde		
CAS N°	50-00-0	≤ 1 %

NOTE TO PHYSICIAN

Advice to physician: There is no specific antidote available. Treat symptomatically and supportively.

PLEASE READ THE LABEL BEFORE USE

DIRECTIONS FOR USE

Use only as indicated. Handle with care.

General Information:

- WIPE-OUT RTU is a non-selective systemic herbicide and is only active when applied to the foliage and green bark of plants.
- WIPE-OUT RTU should only be applied to actively growing weeds.
- Rain or irrigation within 6 hours of application can reduce the efficacy of WIPE-OUT RTU.

INSECTICIDE

WIPE-OUT RTU

Registration No. L8583 – ACT 36 OF 1947

Member of the PLENNEGY GROUP

- The visible effect of WIPE-OUT RTU on treated foliage usually appears at 7 - 10 days after treatment but may vary according to weather conditions.
- Do not spray on weed foliage covered with a layer of dust. In these situations, apply after recent rain or irrigation.
- Do not apply WIPE-OUT RTU to weeds that are covered with dew, or in a dormant growth phase or under stress conditions e.g., moisture, heat or cold stress.
- Perennial weeds must be sprayed upon flower initiation or between mid-summer to early autumn.
- Certain perennial weeds may require follow up spraying onto regrowth.

WIPE OUT RTU is a Ready-to-use product and need no dilution. This product is developed to have a minimum concentration of 1.6% with a shelf life of 2years.

Apply WIPE-OUT RTU, up to the point of run-off, to broadleaf weeds and unwanted grasses (e.g., Kikuyu, Kweek) around lawn and garden borders, paths, patios, rockeries, driveways, etc.

Hardier weeds will need a follow-up treatment after a week or two after re-growth are noticed.

DISCLAIMER

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and the effect thereof may be affected by factors such as abnormal soil, climatic and storage conditions, compatibility with other substances not indicated on the label and the occurrence of resistance of the pest against the remedy concerned as well by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal or for the lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.
